

Armenia selected sources

Catalogue 2

on microfiche

Editor: Dr. J. J. S. Weitenberg, University of Leiden

Introduction

The second catalogue to the microfiche series *Armenian Sources* offers titles filmed mainly in the Library of the University of Amsterdam and the Oesterreichische Nationalbibliothek in Vienna.

The selection made in Amsterdam was based on Macler's description (*Revue des Etudes Arménienes*, vol. 6, 1926 pp. 71-146, offered here separately under number KAR-426/1). The titles chosen from the Oesterreichische Nationalbibliothek were selected on the basis of a microfiche catalogue listing the holdings of that library up to 1930. The remainder of the library's Armenological material is being filmed at present, and a second supplement - covering mainly titles in Western languages - is planned for the near future.

We are pleased to be able to announce that we recently obtained permission to film in the Armenian Patriarchate in Jerusalem, and according to present planning rare titles will soon enrich our already impressive catalogue listing such rarities as nineteenth century newspapers from Constantinople.

Prof. M. Stone of the Hebrew University of Jerusalem has provided reference tools for the study of manuscripts. The items already located in the above-mentioned libraries have been included in this supplement.

The general aim of the Armenian Sources series is to provide a representative collection of works in the field of Armenian philology in a broad sense. Special attention will be paid to the filming of newspapers, journals, and text-editions of Armenian authors. It is clear that the realization of this series will depend completely on the holdings of the libraries that have given permission for filming. For certain items, however, technical difficulties may be prohibitive.

We wish to encourage users of this series to make specific wishes known to the editor. (especially titles that do not occur in the regular Armenological bibliographies - Ghazikian, Salmaslian, Zarbanalian, HHG, Davt'ian, Nersessian). Their suggestions will be more than welcome.

Our heartfelt thanks are hereby expressed to the staffs of the Library of the University of Amsterdam and the Oesterreichische Nationalbibliothek for their generous cooperation.

CONCORDANCE

A concordance has been added to this catalogue for titles catalogued in *Hay hnatip grk'i matenagitaken ts'uts'ak, 1512-1800*, Erevan 1963 (offered by IDC under number BAR-401), abbreviated as HHG and included in the first instalment of the IDC catalogue, as well as in the second catalogue to the series *Armenian Sources*.

First column: number of the work in HHG. Numbers with an asterisk refer to titles offered in the first instalment of this series.

Second column: name of author or first words of the title are given in the IDC catalogue, followed by date of appearance.
